

# My Portfolio

**Name:** Effanga, Bassey Effanga

**Job Title:** Web Developer Intern.

**Why Work with Me:** I am a great communicator and love to invest the necessary time to understand the customer's problem very well.

**DEVELOPMENT SKILLS:** I am familiar with and work daily with HTML, CSS, Bootstrap, PHP, and MySQL. Partial knowledge of Django (python).

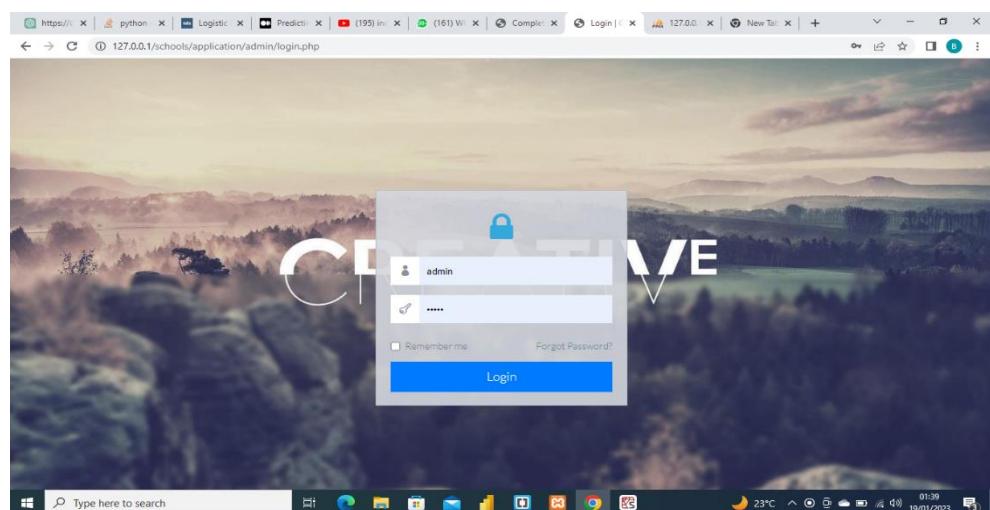

## Projects

Listed below are some of the most representative projects I've worked on. They range from basic.

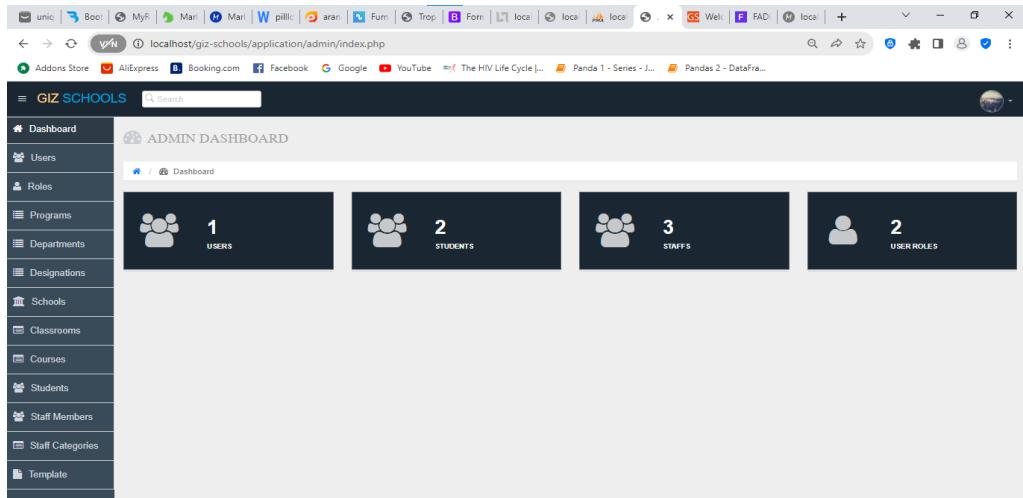

### School Management System

The School Management System is a web-based application designed to streamline various administrative and academic tasks within an educational institution. The system provides a centralized platform for managing students, courses, teachers, and other essential components of school operations.

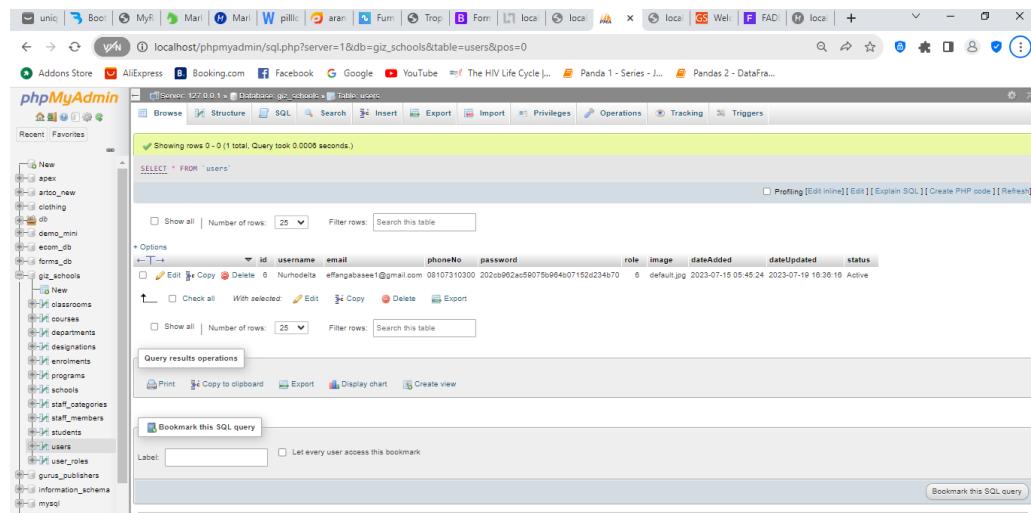

Technologies Used: PHP and MySQL (Backend) and Bootstrap 4 framework (Frontend).

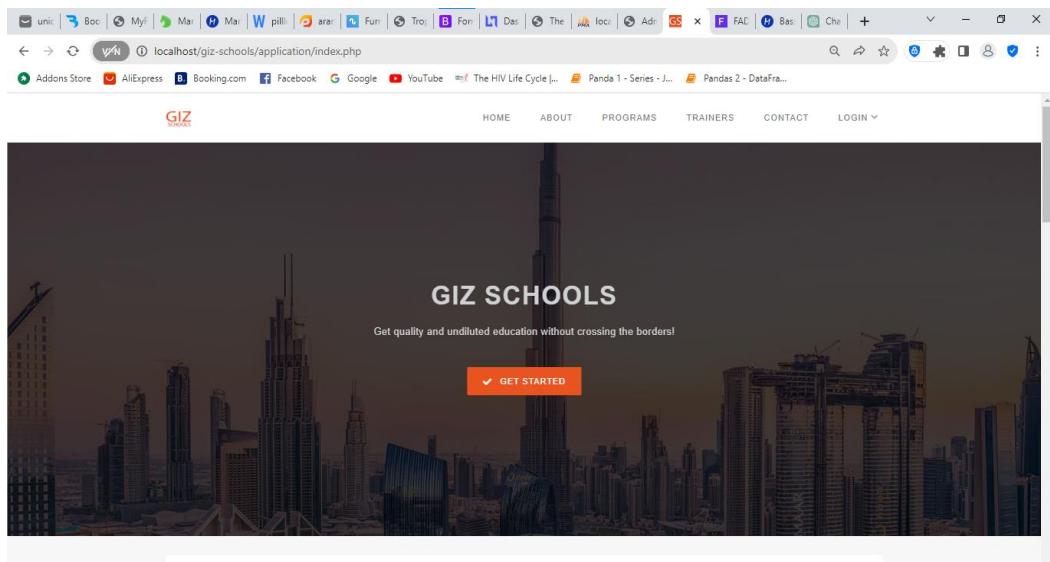

**Fig 1. Login Page to the Admin Dashboard.** Seamless access to the School Management System - a secure gateway for administrators and users.

**Fig 2. Admin Dashboard.** a centralized hub for managing students, courses, and more.

**Fig 3. PhpMyAdmin Database.** Explore the structured magic in MySQL database powered by phpMyAdmin.

**Fig 4. Frontend View.** User-friendly interface for students and teachers.

**Fig 5. Local Server.** seamless access to the School Management System - a secure gateway for administrators and users.

## On-going Project (Book Shopping System)

I am currently engaged in an exciting book-shopping platform. The primary aim of this endeavour is to create a seamless and enjoyable online platform for book enthusiasts to explore, discover, and purchase their favourite reads.

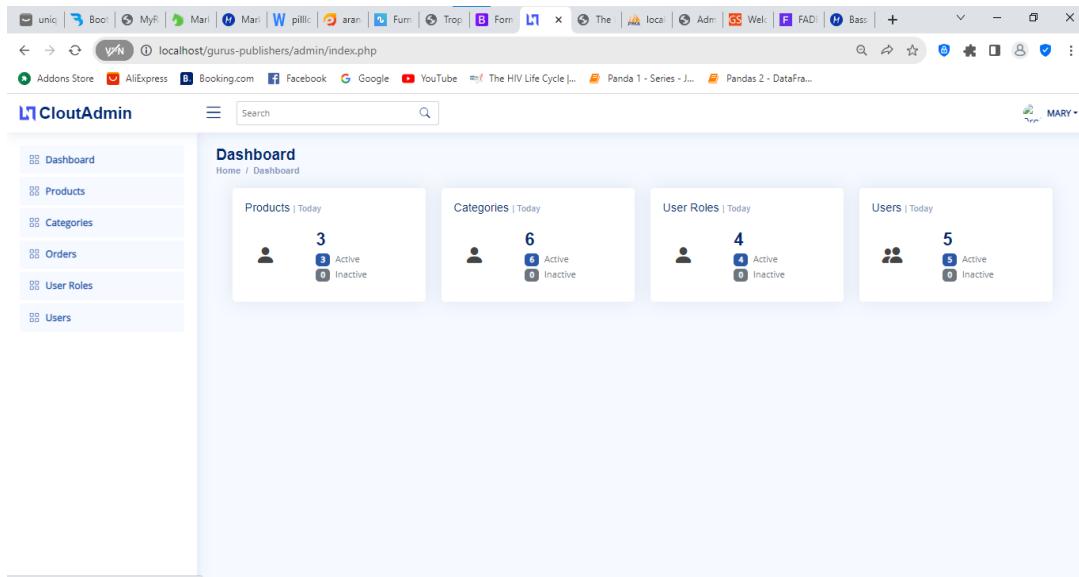

Fig.1. Effortless control with the Admin Dashboard. Manage books, orders, and user data efficiently. A powerful tool for overseeing the entire book-shopping platform.

The screenshot shows the CloutAdmin Admin Product Page. The left sidebar includes links for Dashboard, Products (selected), Categories, Orders, User Roles, and Users. The main content area has a title 'Products' and a breadcrumb 'Home / Products'. A 'New' button is visible. Below is a table titled 'Manage Products' with the following data:

S/N	Action	ID	Name	Image	Price	Pre-Discount Price	Quantity	Description	Category	Date Added	Date Updated	Status
1		PROD-44809	Orange		2000	67	77	ffff	Bubu Gowns	28 January, 2024 07:09PM	29 January, 2024 12:20AM	
2		PROD-99229	Berry		2067	789	6	Berry is good	Shoe	28 January, 2024 07:10PM	29 January, 2024 01:18AM	
3		PROD-16471	Strawberry		20	67	77	Strawberry is good	Trouser	28 January, 2024 07:11PM	29 January, 2024 01:19AM	

At the bottom, it says 'Showing 1 to 3 of 3 entries' and has 'Previous' and 'Next' buttons. The taskbar at the bottom shows various application icons and system status.

Fig 2. In the Admin Product Page, effortlessly add, edit, or remove book listings. Streamlined management with intuitive controls for a hassle-free content management experience.
